CHOOSE FREEDOM

- **Basic info G33:**

Welcome to your ideal living space—a generous open area adorned with expansive sliding doors that effortlessly guide you to your personal balcony, drenching the room in the soothing glow of natural light.
Your modern bedroom, carefully designed to embrace this light, offers an oasis of comfort. And to elevate your convenience, we've positioned the bathroom at the middle.
It's easily accessible from both the open living space and your cozy bedroom, ensuring that your daily routines are as seamless as they are luxurious.

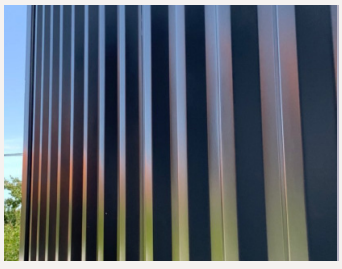
- **The unit is 30 sqm**
- **Dimensions:** 12,2 x 2,4 x 2,9m

Containers: Our primary choice for container units consists of new 20ft and 40ft containers. However, we also offer the option to utilize recycled containers for those interested in sustainable alternatives.

Construction and reinforcements: The process of cutting out and reinforcing the structure is crucial, and it requires meticulous execution for optimal results.

Thermal insulation: Our insulation features a polyurethane foam layer measuring 8-10cm in thickness. This advanced insulation offers three times the effectiveness of traditional options.

Doors and windows: Seven chamber triple glazed windows; thermal energy transmission: U_f=0.94W/(m^2K)

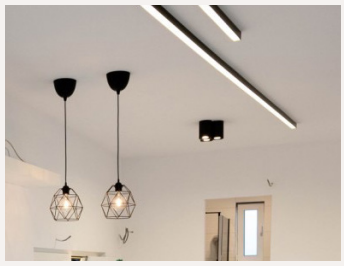


Painting and protection: These special colors have 5 year guarantee against rust.

Heating: Apart from the cost-effectiveness, this space-saving solution offers a delightful underfoot experience.

Switches: Experience convenience with our modern Aling-Conel switches, designed for ease of use. Additionally, our homes include modular USB chargers, ensuring your devices are always powered up and ready to go.

Finishing: Our finishing touches involve the use of special drywall boards, resulting in a fine and smooth surface. We complete the look with eco-acrylic paint for a environmentally friendly finish.



Lights: Illuminate space with a combination of lighting options. Our container homes feature exterior LED lights for security and ambiance, interior IKEA LED lights for efficiency, and handcrafted lights.

The Urban Minimalist Case study

Living in a container house encourages a simpler way of life. This simplicity allows for a clutter-free and organized living environment, fostering creativity in optimizing space and storage solutions.
